## **Social Security**

*How would you protect Social Security for today's seniors and strengthen it for future generations?*

### **AARP's Position:**

Social Security should continue to guarantee that Americans who work and pay into the system receive benefits based on what they earn and contribute. Benefits should keep up with inflation and last for as long as an individual lives. We must strengthen Social Security for the future and protect benefits for people who count on them most, including surviving spouses and families, lower-wage workers, and disabled individuals who no longer can work. Social Security must be put on stable financial ground, but any adjustments should be implemented gradually so changes do not impact those in or near retirement.

### **Jim P. McGovern (Dem):**

Eighty Member of Congress have now signed onto a letter spearheaded by Congressional Progressive Caucus (CPC) leaders to Minority Leader Nancy Pelosi insisting that cuts Social Security, Medicare or Medicaid be off the table in any budget deal. Leaders of the Congressional Black Caucus and Congressional Asian Pacific American have also signed the letter and are encouraging their respective Caucus members to join them. McGovern joins 79 Colleagues on Progressive Caucus Letter Demanding No Cuts to Medicare, Medicaid and Social Security. (Source: McGovern Congressional Site, <http://ow.ly/xAssv>)

## **Medicare**

*How would you put Medicare on stronger financial ground and protect today's seniors and future retirees from rising health costs?*

### **AARP's Position:**

Medicare should be strengthened and improved so both current and future generations can count on having access to high-quality, affordable coverage. Medicare should continue to guarantee a specific set of benefits that are affordable and meet a person's health care needs. Medicare should offer choices that ensure access to high-quality health care. Medicare should improve the quality, safety, and efficiency of care by emphasizing value and cracking down on fraud, waste, and abuse.

## **Financial Security**

*How would you help Americans save so they can secure their future and live independently as they age?*

### **AARP's Position:**

More opportunities and incentives should be available for all Americans to plan and save so they can have a more secure future. Freedom from age discrimination is a fundamental right and critical to Americans' ability to have a secure retirement. Every worker should be treated fairly, regardless of age. We need to support family caregivers who make it possible for more seniors to live in their homes and communities, where they want, rather than taxpayers and struggling families paying for costlier care.

### **Jim P. McGovern (Dem):**

Jim McGovern's top priority in Congress is spurring economic development and job creation in the Second District, with a strong focus on helping small businesses grow and succeed. The Congressman has helped dozens of innovative small businesses thrive in our area... Jim has voted to provide tax relief and incentives to small businesses, and will continue to push for additional tax relief and to reduce red tape. Jim advocates reforming our outdated tax code so that it is fairer to middle class families and helps our small businesses and entrepreneurs compete.
