

US House Missouri District 1

HOW TO USE THE AARP VOTERS' GUIDE:

AARP produced this guide to help you find out what candidates are saying about health and financial security in their own words.

HAVING TROUBLE CUTTING THROUGH THE POLITICAL CAMPAIGN CLUTTER?

AARP is committed to helping you get the facts you need to choose candidates who reflect your views and values. We are nonpartisan – we don't support or oppose any political candidates or contribute any money to campaigns or political action committees. Our priority is ensuring you know where the candidates stand before you cast your vote.

Social Security

How would you protect Social Security for today's seniors and strengthen it for future generations?

AARP's Position:

Social Security should continue to guarantee that Americans who work and pay into the system receive benefits based on what they earn and contribute. Benefits should keep up with inflation and last for as long as an individual lives. We must strengthen Social Security for the future and protect benefits for people who count on them most, including surviving spouses and families, lower-wage workers, and disabled individuals who no longer can work. Social Security must be put on stable financial ground, but any adjustments should be implemented gradually so changes do not impact those in or near retirement.

Martin D. Baker (Rep):

Lacy Clay Jr. (Dem):

I am committed to working with my colleagues in Congress to take fiscally responsible measures that will make Social Security permanently solvent by addressing its long-term challenges... I have cosponsored H.R. 235, the Social Security Fairness Act of 2009 which would amend title II of the Social Security Act to repeal the Government pension offset (GPO) and windfall elimination provisions to protect retirees. I also cosponsored H.R. 3954, the Social Security COLA Protection Act of 2005 aimed at protecting Social Security cost-of-living adjustments (COLA). Medicare

How would you put Medicare on stronger financial ground and protect today's seniors and future retirees from rising health costs?

AARP's Position:

Medicare should be strengthened and improved so both current and future generations can count on having access to high-quality, affordable coverage. Medicare should continue to guarantee a specific set of benefits that are affordable and meet a person's health care needs. Medicare should offer choices that ensure access to high-quality health care. Medicare should improve the quality, safety, and efficiency of care by emphasizing value and cracking down on fraud, waste, and abuse.

Lacy Clay Jr. (Dem):

This legislation(ACA) will have a huge positive impact on you, the constituents of Missouri's 1st district. It will immediately improve coverage for everyone who has health insurance, strengthen Medicare for all seniors, cover thousands of uninsured residents and reduce the deficit in the long run. Financial Security

How would you help Americans save so they can secure their future and live independently as they age?

AARP's Position:

More opportunities and incentives should be available for all Americans to plan and save so they can have a more secure future. Freedom from age discrimination is a fundamental right and critical to Americans' ability to have a secure retirement. Every worker should be treated fairly, regardless of age. We need to support family caregivers who make it possible for more seniors to live in their homes and communities, where they want, rather than taxpayers and struggling families paying for costlier care.

Lacy Clay Jr. (Dem):

Lower defense spending would also free up money and talent to invest in rebuilding America's critical infrastructure — a spending priority that makes us more competitive, creates skilled jobs and positions the United States to excel in the world economy... We need to prove to the American people that when their families, their jobs and their children's future are at stake, Congress has the courage to put politics aside and just get this done.
