## Social Security

*How would you protect Social Security for today's seniors and strengthen it for future generations?*

### **AARP's Position:**

Social Security should continue to guarantee that Americans who work and pay into the system receive benefits based on what they earn and contribute. Benefits should keep up with inflation and last for as long as an individual lives. We must strengthen Social Security for the future and protect benefits for people who count on them most, including surviving spouses and families, lower-wage workers, and disabled individuals who no longer can work. Social Security must be put on stable financial ground, but any adjustments should be implemented gradually so changes do not impact those in or near retirement.

### **Donald M. Payne Jr. (Dem):**

It is critically important that we protect and strengthen Social Security and Medicare for the disabled and our seniors. These are programs that seniors have paid into their entire lives, and it is unconscionable to slash these benefits to pay for more tax breaks to the wealthiest among us. I am staunchly opposed to any plan that cuts these critical programs that ensure our seniors and the disabled do not have to live in poverty. We must protect and strengthen Social Security and Medicare because our seniors deserve to retire with dignity. (Source: Payne's Congressional Site, <http://ow.ly/xDfuF>)

## Medicare

*How would you put Medicare on stronger financial ground and protect today's seniors and future retirees from rising health costs?*

### **AARP's Position:**

Medicare should be strengthened and improved so both current and future generations can count on having access to high-quality, affordable coverage. Medicare should continue to guarantee a specific set of benefits that are affordable and meet a person's health care needs. Medicare should offer choices that ensure access to high-quality health care. Medicare should improve the quality, safety, and efficiency of care by emphasizing value and cracking down on fraud, waste, and abuse.

## **Financial Security**

*How would you help Americans save so they can secure their future and live independently as they age?*

### **AARP's Position:**

More opportunities and incentives should be available for all Americans to plan and save so they can have a more secure future. Freedom from age discrimination is a fundamental right and critical to Americans' ability to have a secure retirement. Every worker should be treated fairly, regardless of age. We need to support family caregivers who make it possible for more seniors to live in their homes and communities, where they want, rather than taxpayers and struggling families paying for costlier care.

### **Donald M. Payne Jr. (Dem):**

Creating jobs and strengthening our local economy is a top priority. I support a comprehensive jobs plan to put people back to work right away that grows our economy for working and middle-class families by rebuilding our roads and bridges, investing in education and jobs training, creating incentives for clean energy innovation, encouraging companies to "Make It In America," and reforming our tax code so that everyone pays their fair share.
