## **Social Security**

*How would you protect Social Security for today's seniors and strengthen it for future generations?*

### **AARP's Position:**

Social Security should continue to guarantee that Americans who work and pay into the system receive benefits based on what they earn and contribute. Benefits should keep up with inflation and last for as long as an individual lives. We must strengthen Social Security for the future and protect benefits for people who count on them most, including surviving spouses and families, lower-wage workers, and disabled individuals who no longer can work. Social Security must be put on stable financial ground, but any adjustments should be implemented gradually so changes do not impact those in or near retirement.

I am very much for doing something now. You may know that I have been advocating, for some time now, that we lift the cap... (Source: Fox News <http://ow.ly/y5Zde>)

## **Medicare**

*How would you put Medicare on stronger financial ground and protect today's seniors and future retirees from rising health costs?*

### **AARP's Position:**

Medicare should be strengthened and improved so both current and future generations can count on having access to high-quality, affordable coverage. Medicare should continue to guarantee a specific set of benefits that are affordable and meet a person's health care needs. Medicare should offer choices that ensure access to high-quality health care. Medicare should improve the quality, safety, and efficiency of care by emphasizing value and cracking down on fraud, waste, and abuse.

### **James E. Clyburn (Dem):**

"Democrats will not support cuts in benefits — that's a non-starter," Clyburn told me, referring to House Dems. "Medicare is a safety net that seniors have earned. These people did not cause the situation that we're in. For us to be talking about continuing tax cuts for the rich and taking benefits away from senior citizens — that is just unbecoming of a civilized society." ## **Financial Security**

*How would you help Americans save so they can secure their future and live independently as they age?*

### **AARP's Position:**

More opportunities and incentives should be available for all Americans to plan and save so they can have a more secure future. Freedom from age discrimination is a fundamental right and critical to Americans' ability to have a secure retirement. Every worker should be treated fairly, regardless of age. We need to support family caregivers who make it possible for more seniors to live in their homes and communities, where they want, rather than taxpayers and struggling families paying for costlier care.

### **James E. Clyburn (Dem):**

Jim Clyburn's efforts are bringing billions of dollars in federal investments to South Carolina to create jobs and economic development[...] The American Recovery and Reinvestment Act "Stimulus Bill" has created thousands of jobs in South Carolina and saved thousands more[...] Building a clean energy economy in South Carolina, bringing investments in good paying jobs in nuclear, bio-fuels, wind and alternative energy to make us energy independent and creating new economies and jobs that can't be shipped overseas.
